SUBJECT INDEX TO VOLUME 10

ABO blood group, Rh, Le^a and Xg^a blood groups, ethnicity, G6PD deficiency and haemoglobin types in myocardial infarction genetic association, 340
Achondroplasia and hypochondroplasia genes, allelism, observations suggesting, 11
Aganglionosis, congenital intestinal (Hirschsprung's disease) and congenital deafness, four unrelated patients, 337
Allelism, of the achondroplasia and hyperchondroplasia genes, observations suggesting, 11
Alport's syndrome, segregation ratios, 23: correspondence, 396, 398
Amniotic fluid cell cultures, 19
Anencephalus and spina bifida in Greater London, 209
ANNOTATION: The Paris nomenclature, 1971, 127
Photographic techniques for recording chromosome banding patterns, 122
Satellite DNA, 273
Anosmia, family with basal cell naevus syndrome, and a case of hypogonadotrophic hypopituitarism, 30
Au antigen, familial accumulation of carriers: preliminary communication, 270

Banding patterns, chromosome, photographic technique: annotation, 122
Basal cell naevus syndrome, report of a family with anosmia and a case of hypogonadotrophic hypopituitarism, 30
Bird-headed dwarfism, familial (Seckel's syndrome) in 46-month-old boy: case report, 196
Blood groups, Xg and the locus causing mental retardation, possible linkage between, with or without hydrocephalus, 17
and the origin of 48,XXXXY, 142
Brachydactyly, hereditary, associated with hypertension, 253

Chromosomes, banding patterns, photographic techniques: annotation, 122
Group B, chromosome 4 (46,XX,4q−), deletion from long arm, associated with congenital anomalies: case report, 83
Group C, translocations involved in two cases: case report, 174
trisomy 9: case reports, 184, 296
Group D, translocations in males examined for military service, 356
trisomy 13 with two infants with cyclops: case report, 294
Group E, abnormalities, identification in human cells, 70
46,XX,t(17;22)(p1;q1) in mother and son with 47,XY,+der(22)mat: case report, 379
Group G, with translocation: case report, 174
(4;21)(q21;q21) segregating reciprocal translocation, with proposita trisomic for parts of 4q and 21: case report, 384
21q21q translocation in Down's syndrome, two living children, maternal transmission, 371
46,XX,t(17;22)(p1;q1), and son with 47,XY,+der(22)mat: case report, 379
nomenclature, an announcement to authors, 96
Paris, 1971: annotation, 127
Patau's syndrome (trisomy 13), antenatal diagnosis, including a detailed pathological study of the fetus, 367
translocation, inherited between 9 and 18 (groups C and D), prenatal diagnosis, 65
trisomy for short arm of No. 9: case report, 296
t(13q15q), three generations and six family members: case report, 94
t(21q22q), segregation analysis of a large family, 362
4 (46,XX,4q−), deletion from long arm, associated with congenital anomalies: case report, 83
XY gonadal agenesis syndrome, 288
Y, dicentric, human, case report and review of the literature, 74
46,XX males, presence of brightly fluorescent material in testes: case report, 170
46,XXp− and 46,XXq− karyotypes in patients with Turner's syndrome, fluorescence and autoradiographic studies, 350
46,XX,t(Bq+;Dq−) / 45,XX,−B,−D+der(B),t(Bq+;Dq−) karyotype, child with congenital malformations: case report, 376
46,XX,t(17;22)(p1;q1) in mother and son with 47,XY,+der(22)mat: case report, 379
46,XY,14q+, partial trisomy of long arm of chromosome No. 7: case report, 187
46,XY/47,XY,+9 mosaicism, with multiple congenital anomalies: case report, 180
47,XX,+21/47,XX,+mar mosaicism, in Down's syndrome: case report, 177
48,XYYY male, a somatic and psychiatric description: case report, 80
48,XXXY, origin, evidence of Xg blood groups, 142
Corpus callosum, agenesis, in two sisters, 266
CORRESPONDENCE: An autosomal recessive form of craniofacial dysostosis (the Crouzon syndrome), 398, 399
Familial microtia with meatal atresia—further case, 305
Lionel S. Penrose, an appreciation, 306
Multiple congenital defects associated with an abnormal unclassifiable karyotype, 305
Segregation ratios in Alport's syndrome, 396, 398
Craniofacial dystosis (Crouzon syndrome), autosomal recessive form: case report, 89: correspondence, 398, 399

Crouzon syndrome (craniofacial dysostosis) autosomal recessive form: case report, 89: correspondence, 398, 399
Cryptophthalmos in two families from Bahia, Brazil: case report, 389
Cyclops, in two infants with trisomy 13: case report, 294

Deafness, congenital, and Hirschsprung's disease, four unrelated patients, 337
and hypothyroidism, hereditary syndromes, experimental approach to understanding and treatment, 235
Deletion from the long arm of chromosome 4 (46,XX, 4q−), associated with congenital anomalies: case report, 83
Dermatoglyphics, the development of epidermal ridges, 201
as diagnostic aid, 165
parental, in mongolism, ten-year study, 328
Dermatology, paediatric, formation of society, 33
skin in genetically-controlled metabolic disorders: review article, 101
Diagnosis, prenatal, *see* Prenatal diagnosis
Dicentric Y chromosomes, human, case report and review of the literature, 74
DNA, satellite: annotation, 273
Down's syndrome, with male hermaphroditism in child: case report, 189
parental dermatoglyphics in, ten-year study, 328
with 21q21q translocation, two living children, maternal transmission, 371
with 47,XX,+21/47,XX,+mar mosaicism: case report, 177
Duchenne muscular dystrophy, myoglobin in, 309
Dwarfism, familial bird-headed (Seckel's syndrome) in 46-month-old boy: case report, 196
thanatophoric, review of six children, 243
Dysostosis, craniofacial (Crouzon syndrome) autosomal recessive form: case report, 89: correspondence, 398, 399

Favism, current problems and investigations, 154

Galactosaemia, phenotypes, infants screened at birth, 27
Genetic counselling, risks, patients' subjective interpretation, 129
and prenatal diagnosis, tissue culture techniques in homocystinuria, 120
Glucose-6-phosphate-dehydrogenase deficiency, ABO, Rh, Le^a, Xg^a blood groups, ethnicity, and abnormal haemoglobin types in myocardial infarction genetics, 340
Growth retardation in karyotype 46,XX,t(Bq+;Dq−)/45,XX,−B−D,+der(B),t(Bq+;Dq−) mosaicism, child with congenital malformations: case report, 376

Haemoglobins, abnormal, ABO, Rh, Le^a, Xg^a blood groups, ethnicity, and G6PD deficiency in myocardial infarction genetic association, 340
fetal and embryonic: review article, 50
levels and β-thalassaemia trait: correspondence, 97, 98
Hirschsprung's disease and congenital deafness, four unrelated patients, 337
Homocystinuria, tissue culture techniques as an aid to prenatal diagnosis and genetic conselling, 120
Huntington's disease, relation of sex of affected parent to the age at onset, 333
Hurler's syndrome, prenatal diagnosis with termination of pregnancy and confirmatory findings on fetus, 144
Hypertension, associated with hereditary brachydactyly, 253
Hydrocephalus, hereditary, possible linkage between *Xg* and the locus for a gene causing mental retardation with or without hydrocephalus, 17
Hypochondroplasia and achondroplasia genes, allelism, observations suggesting, 11
Hypopituitarism, hypogonadotrophic, case in a family with basal cell naevus syndrome with anosmia, 30
Hypothyroidism and congenital deafness, hereditary syndromes, experimental approach to understanding and treatment, 235

Iron, serum, and unsaturated iron-binding capacity in β-thalassaemia trait, relations to levels of haemoglobin A, A_2, and F, 97, 98
Ivemark syndrome with splenic hypoplasia and asplenia in sibs: case report, 303

Le^a blood group, ABO, Rh, Xg^a blood groups, G6PD deficiency, ethnicity, and abnormal haemoglobin types in myocardial infarction genetics, 340
Lip pits and congenital absence of second premolars: varied expression of the lip pits syndrome, 346

Meatal atresia, with familial microtia—further case: correspondence, 305
Metabolic diseases, genetically-controlled, involvement of skin: review article, 101
Mental retardation in karyotype 46,XX,t(Bq+;Dq−)/45,XX,−B,−D,+der(B),t(Bq+;Dq−) mosaicism, child with congenital malformations: case report, 376
with or without hydrocephalus, possible linkage between *Xg* and the locus for a gene causing, 17
Microtia, familial, with meatal atresia—further case: corresponding, 305
Möbius syndrome with Poland's anomaly: case report, 192
Molecular variants in disease, 2-day symposium, Royal College of Pathologists, 14–15 February, 1974, 336
Mosaicism, trisomy 9, with multiple congenital abnormalities: case report, 180
46,XX,t(Bq+;Dq−)/45,XX,−B,−D,+der(B),t(Bq+;Dq−) karyotype, child with congenital malformations: case report, 376
47,XX,+21/47,XX,+mar, in Down's syndrome: case report, 177
Muscular atrophy, spinal, *see* Spinal muscular atrophy
Muscular disease, primary, myoglobin in, part I. Duchenne muscular dystrophy; part II. Muscular dystrophy of distal type, 309
Muscular dystrophy of distal type, myoglobin in, 309
Duchenne, myoglobin in, 309
Myocardial infarction, genetic association, ethnicity: ABO, Rh, Le^a, Xg^a blood groups, G6PD deficiency, and abnormal haemoglobins, 340

Myoglobin in primary muscular disease, part I. Duchenne muscular dystrophy; part II. Muscular dystrophy of distal type, 309

Naevus syndrome, basal cell, report of a family with anosmia and a case of hyogonadotrophic hypopituitarism, 30
Nomenclature, chromosome, Paris 1971, an announcement to authors, 96: annotation, 127

Pachytene analysis in a human reciprocal (10;11) translocation, 282
Paediatric dermatology, formation of society, 33
Paris nomenclature, 1971: annotation, 127; announcement to authors, 96
Patau's syndrome (trisomy 13), antenatal diagnosis, including a detailed pathological study of the fetus, 367
Pendred's syndrome (congenital deafness and hypothyroidism), experimental approach to understanding and treatment, 235
Penrose, Lionel S., an appreciation: correspondence, 306
Perinatal injury, preventability, 2-day symposium, 21–22 March, 1974, 336
Phenocopies: review article, 34
Photographic techniques for recording chromosome banding patterns: annotation, 122
Poland's anomaly, in a case of Möbius syndrome, 192
PRELIMINARY COMMUNICATION: Familial accumulation of carriers of Au antigen, 270
Premolars, second, congenital absence, and lip pits syndrome, 346
Prenatal diagnosis by amniocentesis, results and pitfalls, 112
  and genetic counselling, tissue culture techniques in homocystinuria, 120
  of Hurler's syndrome, termination of pregnancy and confirmatory findings on fetus, 144
Pseudohermaphroditism, male, in child with Down's syndrome: case report, 189

QT-prolongation, electrocardiographic, heritable, in a family, 10 out of 28 members, 158

Refraction errors, modes of inheritance, 161
REVIEW ARTICLE: Fetal and embryonic haemoglobins, 50
  Phenocopies, 34
  The skin in genetically-controlled metabolic disorders, 101
Rh blood group, ABO, Le^a, Xg^a blood groups, G6PD deficiency, ethnicity, and abnormal haemoglobin types in myocardial infarction genetic association, 340
Rh prevention, report and analysis of National programme, Finland, 1
Ridges, epidermal, development, 201
Ring chromosome 6, developmental abnormalities associated with: case report, 299
  22 in monozygotic twins: case report, 85

Saliva substance, 'new', probably inherited, and serologically independent of ABH, Lewis, and Sd^a blood group substances, 323
Satellite DNA: annotation, 273
Scheinfeld Center for Human Genetics in the Social Sciences, foundation of, 252
Seckel's syndrome (familial bird-headed dwarfism) in 46-month-old boy: case report, 196
Skin in genetically-controlled metabolic disorders: review article, 101
Spina bifida and anencephalus in Greater London, 209
Spinal muscular atrophy, electromyographic studies in parents of children with, 8
Spleen, hypoplasia and asplenia, in Ivemark syndrome in sibs: case report, 303
Symposium, Molecular Variants in Disease, Royal College of Pathologists, 14–15 February, 1974; announcement, 336
  Preventability of Perinatal Injury, Mount Sinai School of Medicine, 21–22 March, 1974; announcement: 336
Syncope, family with heritable electrocardiographic QT-prolongation, 10 out of 28 members, 158

Teeth, congenital absence of second premolars, and lip pits syndrome, 346
Teratology Society, 13th Annual Meeting, June, 1973, announcement, 33
Testes, in 46,XX male, presence of brightly fluorescent material: case report, 170
Thalassaemia, genetic variability, family study: case report, 392
  trait, haemoglobin levels: correspondence, 97, 98
Thalidomide embryopathy, phenocopies: review article, 34
Thanatophoric dwarfism, review of six children, 243
Translocation, between chromosomes No. 9 and 18 (groups C and D), inherited, prenatal diagnosis, 65
  in infant with cyclops and trisomy 13: case report, 294
  reciprocal (10;11), human, pachytene analysis in, 282
  three involving C- or G-group chromosomes: case report, 174
  D/D, males examined for military service, 356
  t(13q15q) chromosome, three generations and six family members: case report, 94
  t(21q22q), segregation analysis of a large family, 362
  (4;21)(q21;q21), segregating reciprocal, with proposita trisomic for parts of 4q and 21: case report, 384
  21q21q, in Down's syndrome, two living children, maternal transmission, 371
  46,XX,t(Bq+;Dq−)/45,XX,−B,−D,+der(B), t(Bq+;Dq−) karyotype, child with congenital malformations: case report, 376
  46,XX,t(17;22)(p1;q1) in mother, and son with 47,XY,+der(22)mat: case report, 379
Triploidy, surviving to birth, 3 cases, 135
Trisomy, partial, of long arm of chromosome No. 7 (46,XY,14q+): case report, 187
  segregating reciprocal (4:21)(q21q21) translocation with proposita trisomic for 4q and 21: case report, 384
  for short arm of No. 9 chromosome: case report, 296
  9 mosaicism with multiple congenital abnormalities: case report, 180
  9, survival 28 days: case report, 184
  13 in two infants with cyclops: case report, 294
  13 (Patau's syndrome), antenatal diagnosis, including a detailed pathological study of the fetus, 367
  syndrome, possible interpretation of case report by Surana, Hunt, and Conen: correspondence, 305

Turner's syndrome, showing 46,XXp− and 46,XXq− karyotypes, fluorescence and autoradiographic studies, 350
Twins, monozygotic, with ring chromosome 22: case report, 85

Werdnig-Hoffman disease (SMA type 1), gene frequency, total population survey in North-east England, 260

XY gonadal agenesis syndrome, 288
Xg blood group, and locus causing mental retardation, possible linkage between, with or without hydrocephalus, 17
Xg^a blood group, ABO, Rh, Le^a blood groups, G6PD deficiency, ethnicity, and abnormal haemoglobin types in myocardial infarction genetic association, 340

CONTENTS

No. 1. *MARCH* 1973

Rh Prevention: A Report and Analysis of a National Programme. J. EKLUND AND H. R. NEVANLINNA 1
Electromyographic Studies in Parents of Children with Spinal Muscular Atrophy. A. E. H. EMERY, A. R. ANDERSON, AND M. J. NORONHA 8
Observations Suggesting Allelism of the Achondroplasia and Hypochondroplasia Genes. VICTOR A. MCKUSICK, THADDEUS E. KELLY, AND JOHN P. DORST 11
Possible Linkage between *Xg* and the Locus for a Gene causing Mental Retardation with or without Hydrocephalus. K. FRIED AND RUTH SANGER 17
Amniotic Fluid Cell Cultures. MATILDA M. NELSON AND A. E. H. EMERY 19
Segregation Ratios in Alport's Syndrome. ELIZABETH MACNEILL AND RICHARD F. SHAW 23
Phenotypes of Galactosaemia in Infants Screened at Birth. SALLY KELLY, LUCILLE DESJARDINS, PAUL ARMERDING, AND JEAN BURNS 27
The Basal Cell Naevus Syndrome: Report of a Family with Anosmia and a Case of Hypogonadotrophic Hypopituitarism. D. C. WALLACE, K. J. MURPHY, L. KELLY, AND W. H. WARD 30
Review Articles:
Phenocopies. W. LENZ 34
Fetal and Embryonic Haemoglobins. P. A. LORKIN 50
Prenatal Diagnosis of an Inherited Translocation Between Chromosomes No. 9 and 18. ALLAN J. EBBIN, MIRIAM G. WILSON, JOSEPH W. TOWNER, AND JAMES P. SLAUGHTER 65
Identification of Group 'E' Chromosome Abnormalities in Human Cells. KATHARINE E. VAUSE AND J. K. MCDOUGALL 70
Human Dicentric Y Chromosomes: Case Report and Review of the Literature. MAIMON M. COHEN, MARGARET H. MACGILLIVRAY, VINCENT J. CAPRARO, AND THOMAS A. ACETO 74
Case Reports:
A 48,XYYY Male: A Somatic and Psychiatric Description. HENRY HUNTER AND ROGER QUAIFE .. 80
Deletion from the Long Arm of Chromosome 4 (46,XX,4q−) Associated with Congenital Anomalies. MITCHELL S. GOLBUS, FELIX A. CONTE, AND DONNA L. DAENTL 83
Monozygotic Twins with Ring Chromosome 22. R. H. LINDENBAUM, M. BOBROW, AND L. BARBER .. 85
An Autosomal Recessive Form of Craniofacial Dysostosis (The Crouzon Syndrome). RICHARD C. JUBERG AND SUE R. CHAMBERS 89
Three Generations and Six Family Members with a t(13q15q) Chromosome. RICHARD L. NEU, LYTT I. GARDNER, MARGARET L. WILLIAMS, AND MATTHEW J. BARLOW 94
Chromosome Nomenclature: Announcement 96
Correspondence 97
Book Reviews 99

No. 2. *JUNE* 1973

Review Article: The Skin in Genetically-controlled Metabolic Disorders. P. C. H. NEWBOLD .. 101
Results and Pitfalls in Prenatal Cytogentic Diagnosis. LILLIAN Y. F. HSU, ELYSE C. DUBIN, THOMAS KERENYI, AND KURT HIRSCHHORN 112
Tissue Culture Techniques as an Aid to Prenatal Diagnosis and Genetic Counselling in Homocystinuria. A. H. BITTLES AND NINA A. J. CARSON 120
Annotations:
Photographic Techniques for Recording Chromosome Banding Patterns. N. R. DAVIDSON .. 122
The Paris Nomenclature 127
Patients' Subjective Interpretation of Risks Offered in Genetic Counselling. J. H. PEARN 129
Three Further Cases of Triploidy in Man Surviving to Birth. S. WALKER, J. ANDREWS, N. M. GREGSON, AND W. GAULT 135
Origin of 48,XXXY: The Evidence of the Xg Blood Groups. R. A. PFEIFFER AND RUTH SANGER .. 142
Early Prenatal Diagnosis of Hurler's Syndrome with Termination of Pregnancy and Confirmatory Findings on the Fetus. M. D'A. CRAWFURD, M. F. DEAN, D. M. HUNT, D. R. JOHNSON, R. R. MACDONALD, H. MUIR, E. A. PAYLING WRIGHT, AND C. R. PAYLING WRIGHT 144
Favism: Current Problems and Investigations. E. BOTTINI 154
A Family with Heritable Electrocardiographic QT-prolongation. P. J. C. VAN DER STRAATEN AND C. L. D. BRUINS 158
Modes of Inheritance of Errors of Refraction. ARNOLD SORSBY AND BERNARD BENJAMIN 161
Dermatoglyphics: A Diagnostic Aid? I. C. FULLER 165

Case Reports:
Presence of Brightly Fluorescent Material in Testes of XX Males. WALDEMAR A. PALUTKE, YINGSAN CHEN, AND HAROLD CHEN .. 170
Three Translocations Involving C- or G-group Chromosomes. YASUO NAKAGOME, KAZUSO IINUMA, AND ICHIRO MATSUI .. 174
Down's Syndrome with 47,XX,+21/47,XX,+mar Mosaicism. FELICE M. WEBER, ROBERT S. SPARKES, AND HELGA MULLER .. 177
Trisomy 9 Mosaicism with Multiple Congenital Anomalies. ROBERT H. A. HASLAM, STUART P. BROSKE, CHARLEEN M. MOORE, GEORGE H. THOMAS, AND CATHERINE A. NEILL .. 180
A Case of Trisomy 9. MURRAY FEINGOLD AND LEONARD ATKINS .. 184
Partial Trisomy of the Long Arm of Chromosome No. 7. OMAR S. ALFI, GEORGE N. DONNELL, AND SANDRA L. KRAMER .. 187
Male Pseudohermaphroditism in a Child with Down's Syndrome. MITCHELL S. GOLBUS, CHARLES J. BEAUCHAMP, AND FELIX A. CONTE .. 189
Möbius Syndrome with Poland's Anomaly. GERALD I. SUGARMAN AND HERBERT H. STARK .. 192
Familial Bird-headed Dwarfism (Seckel's Syndrome). JOHN J. SAUK, RICHARD LITT, CERES E. ESPIRITU, AND JAMES R. DELANEY .. 196
Book Reviews .. 199

No. 3. *SEPTEMBER* 1973

The Development of the Epidermal Ridges. L. S. PENROSE AND P. T. OHARA .. 201
Spina Bifida and Anencephalus in Greater London. C. O. CARTER AND KATHLEEN EVANS .. 209
An Experimental Approach to the Understanding and Treatment of Hereditary Syndromes with Congenital Deafness and Hypothyroidism. M. S. DEOL .. 235
Thanatophoric Dwarfism. K. SHAH, R. ASTLEY, AND A. H. CAMERON .. 243
Hereditary Brachydactyly Associated with Hypertension. N. BILGINTURAN, S. ZILELI, S. KARACADAG, AND T. PIRNAR .. 253
The Gene Frequency of Acute Werdnig-Hoffmann Disease (SMA Type 1). A Total Population Survey in North-East England. JOHN H. PEARN .. 260
Agenesis of the Corpus Callosum in Two Sisters. YEHUDA SHAPIRA AND TIRZA COHEN .. 266
Preliminary Communication: Familial Accumulation of Carriers of Au Antigen. TIMO HELSKE AND H. R. NEVANLINNA .. 270
Annotation: Satellite DNA. K. W. JONES .. 273
Pachytene Analysis in a Human Reciprocal (10;11) Translocation. M. A. FERGUSON-SMITH AND BRENDA M. PAGE .. 282
The XY Gonadal Agenesis Syndrome. GLORIA E. SARTO AND JOHN M. OPITZ .. 288
Case Reports:
Trisomy 13 in Two Infants with Cyclops. ATSUKO FUJIMOTO, ALLAN J. EBBIN, JOSEPH W. TOWNER, AND MIRIAM G. WILSON .. 294
A New Case of Trisomy for the Short Arm of No. 9 Chromosome. CARLO BACCICHETTI AND ROMANO TENCONI .. 296
Developmental Abnormalities Associated with a Ring Chromosome 6. C. M. MOORE, R. H. HELLER, AND G. H. THOMAS .. 299
Familial Occurrence of Ivemark Syndrome with Splenic Hypoplasia and Asplenia in Sibs. JANE SIMPSON AND HANS ZELLWEGER .. 303
Correspondence .. 305
Book Reviews .. 307

No. 4. *DECEMBER* 1973

Myoglobin in Primary Muscular Disease. I. Duchenne Muscular Dystrophy and II. Muscular Dystrophy of Distal Type. A. E. ROMERO-HERRERA, H. LEHMANN, B. E. TOMLINSON, AND J. N. WALTON .. 309
A 'New' Saliva Substance, Probably Inherited, and Serologically Independent of ABH, Lewis, and Sd^a Blood Group Substances. P. BALDING AND E. R. GOLD .. 323
Parental Dermatoglyphics in Down's Syndrome. A Ten-year Study. J. H. PRIEST, C. VERHULST, AND S. SIRKIN .. 328
The Relation of Sex of Affected Parent to the Age at Onset of Huntington's Disease. C. J. BRACKENRIDGE .. 333

Hirschsprung's Disease and Congenital Deafness. ROSALIND SKINNER AND DAVID IRVINE 337
Genetic Association in Myocardial Infarction. Ethnicity; ABO, Rh, Le^a, Xg^a Blood Groups; G6PD Deficiency; and Abnormal Haemoglobins. N. SAHA, C. C. S. TOH, AND M. B. GHOSH 340
Lip Pits and Congenital Absence of Second Premolars: Varied Expression of the Lip Pits Syndrome. EDWARD L. SCHNEIDER 346
Fluorescence and Autoradiographic Studies in Patients with Turner's Syndrome and 46,XXp− and 46,XXq− Karyotypes. K. BOCZKOWSKI AND MARGARETA MIKKELSEN 350
D/D Translocations in Males Examined for Military Service. EVA ZEUTHEN AND JOHANNES NIELSEN 356
Segregation Analysis of a Large t(21q22q) Family. C. J. CHAPMAN, R. J. M. GARDNER, AND A. M. O. VEALE 362
Antenatal Diagnosis of Patau's Syndrome (Trisomy 13) including a Detailed Pathological Study of the Fetus. L. J. BUTLER, H. E. REISS, N. E. FRANCE, AND SYLVIA BRIDDON 367
Sibship (21q21q) Translocation Down's Syndrome with Maternal Transmission. M. FURBETTA, A. FALORNI, P. ANTIGNANI, AND A. CAO 371
Case Reports:
A Child with Multiple Congenital Malformations and a 46,XX,t(Bq+;Dq−)/45,XX,−B,−D, +der(B),t(Bq+;Dq−) Karyotype. ALESSANDRA CARNEVALE, AND LUIS DE LOS COBOS 376
An Inherited Small Extra Chromosome. A Mother with 46,XX,t(17;22)(p1;q1) and a Son with 47,XY,+der(22)mat. DIGAMBER S. BORGAONKAR, VICTOR A. MCKUSICK, AND PHILIP A. FARBER .. 379
Segregating Reciprocal (4;21)(q21;q21) Translocation with Proposita Trisomic for Parts of 4q and 21. ALBERT DE LA CHAPELLE, MAILA KOIVISTO, AND JIM SCHRÖDER 384
Cryptophthalmos in Two Families from Bahia, Brazil. ELIANE S. AZEVÊDO, JESULINO BIONDI, AND LUIZ M. RAMALHO 389
The Genetic Variability of Thalassaemia. A Family Study. E. DE LA TORRE, E. SVARCH, AND B. COLOMBO 392
Correspondence 396
